we may refer to the fact that there was a machinery and bring it down to the banks of the Ohio opposite New Cumberland, Hancock county, in this State and there land, by a pipe laid in the bottom of the river, and start a sheet and perhaps a bar mill on a capital of \$50,000. The theory was that a mill thus situated, having such chesp fuel (wholly free from sulphur) make a pile of money. The theory looks all right and we are curious to know whether anybody about New Comberland had enterprise fenough to put it into practice. There has been several fortunes in that gas well for years past. Had such a mill at is proposed been put there prior to the flush times of 1871-73 it would have been equal to a gold mine.

The failures in the United States for the quarter ending October 1st were 1816 as against 2,420 for the same quarter last year, and as against 1,771 for the same quarter of 1875. The sum total of failures thus far this year is 6,585 as against 7,600 in 1876, and 5,334 in 1875. The agreegate amounts involved are \$111,052,503 this year, \$150,272,800 last year, and \$23,091 in 1875. The agency mount of Habilities to each failure the seer 1s \$21,622; against \$22,156 last year, and \$23,091 in 1875.

While this is not a very flattering showing it indicates that things are of the mend. It is certainly a consolation to believe that the worst in the way of failures is over. Henceforward we may look for a diminishing number of anch misfortunes.

These cri-cumstances, in my judgment, constitut an extraordinary occasion, requirin Congress to be convened in advance of the time prescribed by law for your me ing in regular session. ly action upon this subject on the part of Congress is so manifest that part of Congress is so manifest that I venture to suggest the propriety of making the necessary appropriations for the support of the army for the current year at its present maximum numerical strength of 25,000 men, leaving for future consideration all questions relating to increase or decrease of the number enlisted men. In the event of the redu enlisted men. In the event of the regista-tion of the army by subsequent legisla-tion during the fiscal year the excess of the appropriation need not be expended, tion during the inical year the excess the appropriation need not be expended, and in the event of its enlargement the additional sum required for the payment of the extra force could be provided in due time. Mr. Cox raised the point of order that disputed elections must be considered in order. Objected to and Colorado was lost. A long discussion took place on the question of swearing in the two South Carolina members, Rainy and Cain, whose names were put on the roll by the Clerk.

Mr. Cox wanted the question referred to the Committee on Elections, but it was contended, among others by two Democrats, (Mills and Potter) that as the gentlemen had the usual legal certificate of election they should be sworn in, when their right to seats might be referred. This view prevailed and Rainy and Cain, the objection was withdrawn in the case of Durrell, of Louisiana, and he also was sworn in. The case of Elam, of Louisiana, was discussed, but no result was reached.

Paris, October 16,—The result of the French election is unknown yet. Rappel claims 524. The election gives 317 seats to the Republicans and 107 to the McMahonites, and ten second ballots will be required. Several Republican papers speak of contesting the election of Mast Undergo in the Chamber. Steele urges the Chamber to use unsparing justice in this respect. No complete returns except from Colonies, which show that 314 Republicans and 210 Conservatives have been elected and fourteen second ballots necessary. The Conservatives retain 142 seats out of 158 held by them in the late Chamber, and the Republicans retain 297 seats of the 323 who voted for the order of the day censuring the dissolution of the Chamber.
